

COLLEGE OF FELLOWS

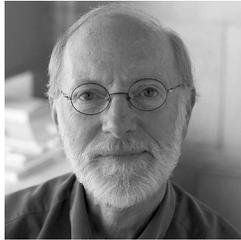

COLLÈGE DES FELLOWS

2008

Honorary Fellows – Hon. FRAIC, 2008
Fellows honoraires – Hon. FIRAC, 2008

Robert Berkebile

L'honorable Herménégilde Chiasson

Honorary Fellow

Robert Berkebile

Bob Berkebile is a leading authority in the field of sustainable design and is the founding chairman of the American Institute of Architects' National Committee on the Environment. He is a Principal of BNIM Architects, and Elements Consulting, and brings 40 years of diverse experience to the profession. Bob currently serves on the boards of The Nature Conservancy, Environmental Building News, The Center for Global Community, Athena and New Earth Organization; he was a member of the US Green Building Council board and currently serves on USGBC's Technical and Scientific Advisory Committee. He is highly regarded by fellow professionals for creating beautiful environments that are restorative and pedagogical. He has conducted numerous sustainable design charrettes and workshops for the White House, DOD, DOE, NPS, FEMA and the Canadian Provincial Associations of Architects. He has lectured extensively at universities including Harvard, Cambridge, Stanford and Rice and at international conferences including The Earth Summit in Rio and UN or NSF conferences in Scotland, Sweden and Antarctica. Bob utilizes diverse collaborative teams, integrated design and creates new approaches and tools to restore social, economic and environmental vitality.

In 1993, following the Mississippi flood, Bob was asked to assemble a team of fifty national experts to consider new federal guidelines for disaster response and he has since led and/or participated in teams to rebuild or relocate communities in Illinois, Missouri and the Texas Medical Center in Houston following Tropical Storm Alison.

Some of his representative projects include the Noisette Development (a 3,000 acre redevelopment) in North Charleston, several benchmark projects for healthy, efficient facilities at the University of Texas Health Sciences Center in Houston, a new headquarters for the Eugene, Oregon Water & Electric Board, a learning center promoting sustainability and conservation ethics at Shelburne Farms, Vermont, the Missouri Department of Natural Resources headquarters in Jefferson City, and the Missouri Department of Conservation's Urban Conservation Campus in Kansas City.

Fellow honoraire

L'honorable Herménégilde Chiasson

Herménégilde Chiasson est l'une des personnalités culturelles les plus accomplies du Canada. Poète, auteur dramatique, artiste visuel, éditeur et directeur artistique, il a grandement contribué à la définition de la communauté artistique acadienne moderne. Au moment de sa nomination au poste de Lieutenant-gouverneur du Nouveau Brunswick, M. Chiasson faisait partie du corps professoral de l'Université de Moncton, un poste qu'il occupait depuis 1988. M. Chiasson a participé à plus d'une centaine d'expositions et est l'auteur de plusieurs livres, dont *Conversations* (Prix littéraire du Gouverneur général, catégorie poésie, 1999). Il a également écrit une vingtaine de pièces de théâtre. Herménégilde Chiasson a dirigé la Galerie d'art de l'Université de Moncton et est membre fondateur de la coopérative Aberdeen et de l'atelier Imago. Il a reçu de nombreuses reconnaissances, dont le Prix France-Acadie en 1986 et 1992, le prestigieux grade de Chevalier de l'Ordre français des Arts et des Lettres en 1990, l'Ordre des Francophones d'Amérique en 1993, le Grand Prix de la francophonie canadienne en 1999, et plus récemment, en 2003, le Prix quinquennal Antonine-Maillet-Acadie Vie, pour l'ensemble de son œuvre.

Carl Blanchaer

Carl received a Bachelor of Environmental Studies degree and Master of Architecture degree from the University of Manitoba where he distinguished himself by winning the Alpha Rho Chi Medal. Since 1981, Carl has been practicing in Toronto with WZMH Architects. As a WZMH Design Architect and Design Principal, Carl has won numerous Canadian and international design awards and competitions including notable projects such as Canada Place in Edmonton, the Canadian Space Agency in St. Hubert, Quebec, the Public Institution for Social Security, Kuwait and the Futures Building in Shanghai.

Carl is also recognized as a leading authority in the design of justice facilities with the construction of the 35,000 m² A. Grenville and William Davis Courthouse in Brampton, Ontario and the 40,000 m² Durham Consolidated Courthouse in Oshawa, Ontario. In 2000, Carl was a featured speaker on the subject of justice architecture at the RAIC Convention in Ottawa.

Throughout his career, Carl has demonstrated a consistent ability to address complex design and planning issues in large-scale projects while maintaining high standards of design excellence and cultural and contextual sensitivity. As with many of the best practitioners, Carl exhibits intelligent, confident leadership, a thoughtful approach to design and a profound commitment to professional service.

Paule Boutin

Madame Paule Boutin a obtenu son baccalauréat en architecture en 1982 à l'École d'architecture de l'Université Laval de Québec. Mme Boutin devint ensuite membre de l'Ordre des architectes de Québec à partir de 1984, puis de l'Institut Royal d'architecture du Canada en 2002.

Depuis 1986, Paule Boutin oeuvre à titre d'architecte-patron et connaît une riche carrière architecturale. Elle a conçu et dirigé plus d'une centaine de projets d'envergures diverses. L'organisme Sauvons Montréal a notamment souligné l'importance de l'apport architectural de Paule Boutin en lui décernant le PRIX ORANGE en 1986 pour divers projets de rénovation de bâtiments du patrimoine religieux.

L'expérience architecturale de Paule Boutin a été mise à profit grâce à son importante implication au sein d'organisations majeures liées à l'architecture au Canada. Membre du Bureau de direction de l'Ordre des architectes du Québec pendant 7 ans, de 1997 à 2000 et de 2003 à 2007, elle a participé activement au développement de la profession et de l'architecture au Québec. Paule Boutin a particulièrement oeuvré à la promotion de l'architecture au sein de l'Institut Royal d'architecture du Canada. Directrice régionale de l'IRAC pour le Québec pendant plus de 4 ans, elle s'est récemment vu confier le titre de 1^{ère} vice-présidente et de présidente élue au sein du Conseil d'administration de l'Institut Royal d'architecture du Canada.

Le dévouement et la contribution professionnelle de Paule Boutin sont un exemple d'implication pour tous les membres de la profession. Son travail témoigne de ses convictions profondes face au développement de l'architecte et de l'architecture.

En cette année festive du centenaire de l'Institut Royal d'architecture du Canada, Paule Boutin porte le flambeau du rayonnement de l'architecture et de l'architecte à travers tout le Canada.

Melvin Charney

No one has had greater influence on the architecture of the city and the theory of urban form than Melvin Charney. Taking its place within the most persistent and challenging debates engaging architects and urbanists since the 1960s, his work engages questions of place and memory, site and city. These central questions provoked by cultural and technological change, increased social displacement and the physical destruction of the built fabric of the city, have produced a new discourse between art and architecture. This discourse has moved architects and artists to confront the built world we live in and inspired new critical practices that probe contemporary culture. One of four founders of the École d'architecture of the Université de Montréal in 1964, Charney also organized and directed the school's Urban Architecture Unit that was crucial in sensitizing the municipality, as well as generations of architects, landscape architects and city planners who, in turn, injected these principles into the city and inspired their students to do likewise. Charney's large-scale installations make manifest his theories of place (site) and memory (history), and his argument for the significance of urban form. His great public places – *The Canadian Tribute to Human Rights* in Ottawa, The CCA Garden in Montréal, and Esplanade Frontenac in Sherbrooke – have transformed whole sectors of cities, enlarging and intensifying their meaning. Reaching a broad international public through his teaching, publications and exhibitions, Charney's works stand as landmarks that are constantly revisited as essential points of reference in the fields of art and architecture.

Teresa Fiona Coady

Ms. Teresa Coady, Chief Executive Office and Founding Partner of Bunting Coady Architects, is an advocate of integrated, systems-based, sustainable design. She is responsible for setting a high standard in developing strong architectural design that is communicable and measurable in its values and process. Since 1994, she and her firm have received over 50 awards for buildings that have created healthy environments for their occupants and energy conscious facilities for their clients.

Teresa has been a leader on many professional committees, including a Board Member of the US Green Building Council and a Vice President of the AIBC. She was also an advisor to the BC Energy Code and the National Energy Code. In recognition of her strong profile and leadership both within the architectural profession and the community at large, she was selected to be the 1999 recipient of the YWCA Woman of Distinction Award. In 2007 Teresa was appointed to the BC Provincial Government's Climate Action Team (CAT), which is examining ways in which the government can achieve its goal of reducing greenhouse gas emissions in BC by 33 percent below current levels by the year 2020. She is also a member of SB08 (Sustainable Buildings 2008) 'Team Canada', a select group of volunteers who will highlight Canadian achievements in sustainable design in Melbourne, Australia, later this year.

Teresa has served her profession with distinction as an Innovator in Sustainable Design, and created, with her Partner, a firm that is well respected – both for its professionalism and its design values. Teresa is a strong and effective advocate for, and an excellent example of, the highest professional standards of our profession.

Tom Connell

Tom attended Saint Francis Xavier University in Antigonish, Nova Scotia graduating in 1978 from the Nova Scotia Technical College with Bachelor of Environmental Design and Bachelor of Architecture degrees.

Tom became a Registered Architect in 1983 and is a member of the Nova Scotia Association of Architects (NSAA), and joined the Royal Architectural Institute of Canada that same year.

Tom served as President of the Nova Scotia Association of Architects 1997 and 1998 and was on Council from 1994 to 2000. He served as the Nova Scotia representative to the Committee of Canadian Architectural Councils and National Practice Program for four years.

For community service, he was awarded a Governor General's Commemorative Medal for the 125th Anniversary of the Confederation of Canada in recognition of significant contribution to compatriots, community and to Canada in 1992.

Tom has travelled to China, Japan, Russia, Argentina, Italy, France and England and has worked on projects in China and Russia.

Tom is President of Tom Connell Architects Ltd, a practice in Truro, Nova Scotia. The corporate approach is to maintain a modest size firm, but to also take on larger projects in collaboration with select designers and architectural firms based on the programme and skills requirements of those projects. These collaborations and being able to select the best talents available have resulted in the firm handling many larger projects with a high degree of innovation and expertise.

In his spare time, Tom enjoys sailing, golf, photography, skiing and their cottage on the North Shore of Nova Scotia with his wife and business partner, Betty. They have three wonderful children, Jill, Thomas and Suzanne.

David J. Croft

After 25 years practicing architecture and 10 years in the construction business, David joined the Ontario Association of Architects in 1989 managing claims for the newly established “Indemnity Plan”, which had been recently created by the OAA to provide mandatory professional liability insurance to Ontario architects. For the last eighteen years he has been a major contributor to the success and growth of the OAA’s indemnity program and its successor, Pro-Demnity Insurance Company.

On a daily basis, David provides dedicated service to the profession, doing a “hidden” job without recognition or fanfare. He has become an invaluable resource to the profession, advising on claims avoidance and directing the defence of architects faced with insurance claims. In this role he is among the best in Canada.

He has played a major role in a number of landmark decisions impacting the profession in Canada including the “*Privest*” case that effectively immunized Canadian architects from asbestos claims. More recently, his warnings to architects have encouraged a better understanding of the limitations of problematic cladding systems and fostered the development of improved products and technologies.

David’s straightforward approach, frankness, knowledge of the design professions and the construction industry and his extraordinary skill have gained him the respect of his colleagues whether in his role as the defender of architects or in mediation seeking resolution of a matter on behalf of an architect.

He has written sixteen very popular reports to architects titled “*Claims... case histories... with advice and warnings to Architects in practice*” which draw on actual stories and cases from David’s experience.

He is an unambiguous supporter of the profession of architecture and an outspoken champion for fair and equitable treatment of its practitioners. He willingly volunteers to assist in educational forums where he shares the benefits and lessons gained from his service to the profession.

Stanford Downey

Stanford Downey, born in Regina, Saskatchewan, studied Architecture at McGill University. In 1969, he received the Pilkington Prize, and the RAIC Medal for being the top student. The talented young Architect joined WZMH in 1972 and rose quickly into a partnership position. In 1977 Stan co-founded Clarke Darling Downey Architects, which has developed into Stanford Downey Architect Inc.

Stan has achieved eminence and has received several awards. His designs are often ahead of the times showing a remarkable ability in employing innovative design solutions, and inventive use of construction, materials and textures.

Stan has been mentoring architectural students and intern architects over the years. In addition, he has been a frequent guest critic at the Universities of McGill, Toronto and Waterloo. He has tirelessly contributed his time and energy to the profession as a strong advocate for the value of work that Architects do, appearing on TVO the Toronto Star and Globe & Mail. He contributed as an important professional witness for the OAA in successfully defending the biggest professional lawsuit in architecture in Canada, dealing with the use of asbestos as a fireproofing material.

Stan has devoted many years as a member and chairman of the Toronto Society of Architects and as a member of the OAA Practice Committee. A most important contribution to the profession was the substantial initiative he took together with Pat Quinn of the APEO to defeat Bill 124. This legislation was affecting the lives of all Architects in Ontario, and for that alone the profession is both relieved and grateful to the perseverance that Stan demonstrated until the goal of defeating the Bill was achieved. Stan Downey has excelled in his career and has served the architectural profession consistently and commendably over the years.

Costanzo M. Gabriele

Cos Gabriele is a partner with Cohos Evamy, a multi-disciplinary integrated design firm with studios in Toronto, Edmonton, and Calgary. Cos joined Cohos Evamy in 1981 becoming a partner in 1984. Previously he spent 4 years with the University of Calgary Planning Department planning the Faculty of Medicine new building, followed by 3 years with the University of Alberta Hospitals, and 4 years with UHCS Architects Group Ltd in Edmonton, working on the design and construction of Phase I of the Walter C. Mackenzie Health Sciences Centre, still considered to be one of the top state-of-the-art health complexes.

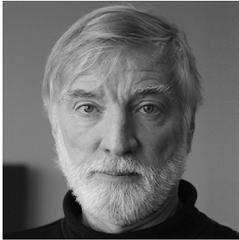

Cos is an accomplished health care facility planner, designer, and implementation strategist. His hands-on style gives him the ability to visualize an endpoint, plot a course, and then motivate a team to reach the destination. Throughout this process he conscientiously mentors those around him, transferring his knowledge and expertise to generations of upcoming professionals. Cos has provided leadership on numerous projects at the Foothills Medical Centre in Calgary and the Walter C. Mackenzie Health Sciences Centre in Edmonton, and on projects such as the Stollery Children's Hospital, the University of Calgary Health Sciences Centre, the University of Calgary Health Research Innovation Centre, the Lethbridge Regional Hospital and the University of Lethbridge Canadian Centre for Behavioural Neuroscience.

Cos is strongly committed to the advancement of healthcare design and to the communities he works within. As past board member on both the Calgary Science Centre and the Science Alberta Foundation and the Canada Science and Technology Museum, his passion for innovation is evident. With a vast knowledge base and visionary desire to move healthcare design into the future Cos continues to advance the profession in this highly specialized area.

Lee Erin Gavel

Born in Edmonton, Alberta in 1949, Lee received his undergraduate degree from Simon Fraser University in 1974, and a Master of Architecture degree from the University of Calgary in 1978. After working as a project architect, landscape planner and project coordinator for large architectural firms and corporations and as a consultant to National Commissions through 1987, Lee returned to Simon Fraser University in 1987. Amongst other responsibilities, Lee's portfolio at Simon Fraser has included University Architect, a role that has made him responsible for all design and development activities for the three campuses of the University. He is responsible for master planning, review of all campus design and oversees the capital project program. In addition to his professional responsibilities at the University, Lee has made time for the profession, by serving on a number of committees, task forces and boards at the Architectural Institute of British Columbia, most notably as a member of Council, and as the Registrar. Lee is the founding and most active member of the appeals board of the AIBC. Lee has shared his knowledge of a number of professional topics by teaching continuing education courses to architects, interns, planners, and developers. Lee has been a member of the AIBC and the RAIC for over twenty years, in addition he is a member of the Association of University Architects, BC Society of Landscape Architects, the Planning Institute of BC and a number of community organizations.

Paul A. Grant

Prior to founding Grant & Sinclair Architects Ltd. in 1979 with his partner Doug Sinclair, Paul spent 10 years, following graduation from the University of Manitoba, traveling and working in a number of established architectural practices where the tutelage and talent of skilled architects fostered his design and process skills.

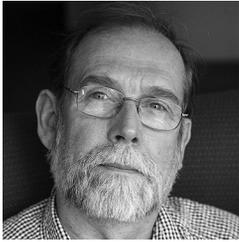

As a principal of Grant & Sinclair Architects Ltd., Paul has been instrumental in developing a practice that services the regional needs of clients throughout British Columbia.

Focusing on the program, design and construction of educational/institutional facilities and single-family residences, Paul considers every client and every site as unique. In particular, the schools and colleges that Paul has designed are considered amongst the most innovative, flexible and efficient in the province. Working creatively with the public spaces of such facilities, he has developed positive learning and working environments through well-resolved and well-detailed light filled buildings.

Such attention to user needs and detailing has been recognized in the many awards from the Council of Educational Facilities Planners International (CEFPI), the Canadian Wood Council (CWC) and the Lieutenant Governors Awards Program of the AIBC.

Paul's experience working with custom homes and coastal resorts, often on remote and beautiful sites, has allowed him to experiment with many sustainable building concepts that are now becoming an integral part of contemporary architectural practice.

Paul looks forward to embracing the fiscal, environmental and political challenges of the evolving architectural market while honing his sports fishing skills throughout the Pacific Northwest.

Gary R. Hanley

Gary Hanley has distinguished himself as an Architect over a 35 year career in Halifax and in Nova Scotia. He graduated in Architecture in 1973 from the School of Architecture, Nova Scotia Technical College, now Dalhousie. He has taken the broad and wide ranging experience gained from 10 years as owner and sole practitioner of Mettam Group Inc., culminating with the restoration of Saint George's Round Church to become Senior Construction Administrator with the prominent Atlantic firm, WHW Architects. His involvement over the past decade has been key in many significant projects including the Halifax Airport International and Domestic Arrivals Area and The Halifax West High School.

Equally impressive is Gary's willingness to *see* beyond the bounds of everyday practice and advocate for architecture in the larger sense. He has given yeoman service to the NSAA over the past three decades. He *served* as Councilor in 1986-87 and as Secretary Treasurer in 1988-89. He was the leader of the NSAA Public Awareness efforts from 1981 through 1991, organizing a series of public events promoting Architects and Architecture, including a series of Domino Knockdowns to raise money for the IWK Children's Hospital. He was responsible for the inception of the NSAA annual Design Awards in 1986, and instrumental in securing the participation of the Lieutenant Governor in the Design Awards in 1989, an ongoing sponsorship that has continued for two decades. Gary's significant contributions to the NSAA and the public awareness of Architecture were formally honored with an Appreciation Award given by the Association in 1991.

Architecture and its practice in Eastern Canada is enriched, both in perception and reality, by the participation of Gary Hanley.

George Thomas Kapelos

A native of London, Ontario, George completed a Bachelor of Arts in Architecture and Urban Planning at Princeton University graduating magna cum laude in 1971. He subsequently obtained a Master of City Planning degree from the Graduate School of Design at Harvard in 1975.

Following a career as urban planner in the public and private sector, he attended Yale University where he completed a Master of Architecture degree 1993. At Yale, he was awarded the Christopher Tunnard Memorial Scholarship and was the recipient of a CMHC graduate fellowship.

George began a distinguished teaching career at the Columbia University Graduate School of Architecture and Urban Planning in 1983. This was followed by positions with Harvard University, the Faculty of Architecture, Landscape, and Design at the University of Toronto and the Department of Architectural Science where he is an associate professor of architecture. He was appointed Chair of the Department of Architectural Science at Ryerson in 2002. During his term as Chair, he guided the program through significant program developments culminating with the introduction of a Master of Architecture program that was launched in the fall of 2007.

George is widely published and is the recipient of the Award for Outstanding Achievement / Prix d'Excellence, Canadian Museum Association for Interpretations of Nature, 1995. He is the past President of the Society for the Study of Architecture in Canada and the Toronto Society of Architects. He was elected Senior Fellow, Massey College in 2005 where he is a Visiting Scholar-in-Residence, 2007 – 2008.

George is a member of the Ontario Association of Architects and Principal, George Thomas Kapelos Architect (Toronto), established in 2000.

Don Kasian

Dynamic leadership has been the hallmark of Don Kasian's professional career. From starting a modest practice in Edmonton, he has lead Kasian Architecture Interior Design and Planning Inc. into a global, award winning practice with a major presence in Canada, China, India and the United Arab Emirates over the last two decades.

His egalitarian concepts of team have embraced clients, consultants, builders, and communities with the end result being outstanding work widely acknowledged. A prime example of the results of Don's approach is the overwhelming reception by the staff, patients and families, and general public of the new Alberta Children's Hospital on which the Children played a major design role as members of the Kasian team and which, due to the solid performance of the entire team, was completed ahead of the committed schedule and under the committed budget

His respect for the opinion of others and recognition of their talents has been the engine of growth. He often says things like "...there are no dumb questions..." and "...we are all designers...", enabling team members to extend themselves in creativity well beyond their own perceptions of their capacities.

The success and growth of the practice would not have been possible without Don's total commitment to development of the ideas behind the practice and his commitment to architecture in the service of the community. His own involvement in public matters notably includes a seat on the Design Futures Council, long commitment to Young Presidents Organization, and the World Presidents Organization, which all engage him in the global community.

Carol Kleinfeldt

Carol Kleinfeldt has distinguished herself as an architect and has made a considerable contribution to the community since graduating from the University of Toronto School of Architecture in 1978. The buildings for which she has had responsibility have been noteworthy, not only for innovation in energy efficiency and material quality, but for social sensitivity and a calm aesthetic. She also contributed to the community as a mentor and through her volunteer work in organizations of architecture and the arts.

A partner in Kleinfeldt Mychajlowicz Architects, Carol Kleinfeldt has had responsibility for award winning projects as diverse as an emergency services training centre, a penal institution, a health services facility and an office building. The awards were for architectonic and aesthetic merit but there is evident a particular concern for the user, beyond the client demand. Unusually well-informed, she has a reputation for questioning accepted wisdom.

As a volunteer, Carol Kleinfeldt has contributed to the profession itself and also increased recognition of the values of architecture in the arts community and society at large. She was a member of the Executive Committee of the Toronto Society of Architects and its Chairperson in 1987/88; and was a jury member of OAA Architectural Excellence Awards and Toronto Arts Awards, among others. She was a member of the board/committee of diverse arts enterprises, such as Toronto Arts Week, The Word on the Street and Desrosier Dance Theatre.

Carol Kleinfeldt has contributed to the culture of architecture both through architectural practice and community activities.

Christian Klemt

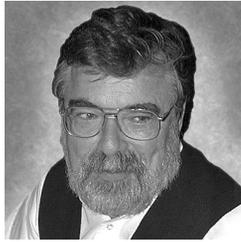

Christian Klemt was born in Toronto, Ontario and studied at the University of Waterloo graduating with a Bachelor of Environmental Studies (1981) and a Bachelor of Architecture, Dean's Honour List (1983).

Christian began his career at Dunlop Architects in 1983, becoming an Associate in 1988 and an Associate Principal in 1992. In 1997, he joined Montgomery Sisam Architects where he became a Principal in 2001.

He was an active member of his community, working tirelessly on the Executive and the Urban Action Committee of the Toronto Society of Architects.

Christian's portfolio of work includes: Bloorview Kids Rehab, Toronto, Ontario (ARIDO Award of Merit 2006, Outside of the Box Award for Architectural Innovation, Building Magazine 2007 and a Commendation – Health Academy Awards, International Academy of Design and Health 2007), The Ontario Provincial Police Headquarters, Orillia, Ontario (AIA Architecture for Justice, 1999), Headwaters Health Care, Orangeville, Ontario (OAA Honourable Mention 2000), Royal Trust Tower, Toronto, Competition Winner (38th Annual P/A Awards, Citation), Kitchener City Hall Competition, 1989, (Finalist), Housing on Toronto's Main Streets, 1990 (Honourable Mention), CIBC Branch Building, Port Hope, Ontario (OAA Awards Honourable Mention 2000), and Bird Studies Canada Headquarters, Rowan, Ontario (Canadian Architect Award of Merit 2001 and Citation Award – Wood Design Awards 2003).

Christian passed away in June 2006. His contribution to our architectural heritage has been truly significant and the influence he had on those he worked with will ensure his legacy of excellence continues.

Nils Larsson

Nils Larsson was born in Malmo, Sweden, and immigrated to Montreal when he was 11. He received his Bachelor of Architecture from McGill University in 1965 and began his professional career in Ottawa. Nils joined a private office and then moved to Canada Mortgage and Housing Corporation to pursue research in housing. Following his stint at CMHC Nils became a consultant and has become internationally recognized as a contributor and expert in the field of sustainability.

Nils was a leader in the adoption of computers for management of building performance data and networks of building performance experts. He wrote and published a number of newsletters, including the Advanced Buildings Newsletter (ABN). ABN was published through the RAIC, and was one of few sources of information on “green design” available in the early 1990s.

On behalf of the CANMET Buildings Group at Natural Resources Canada, he was instrumental in the development of the C-2000 Program for Advanced Commercial Buildings. Nils managed the assembly of the first comprehensive set of technical and process requirements for the design of high-performance office buildings, and developed the outline for a facilitated workshop design method known as the Integrated Design Process.

In 1996 Nils began development of the Green Building Challenge, a project to establish an international sustainable buildings rating system that could be tuned to reflect the priorities of different regions of the world.

Nils is the executive director of the International Initiative for a Sustainable Built Environment which has a mandate to share information about sustainable buildings internationally and manages the Green Buildings challenge.

Doug McConnell

Doug McConnell chairs Cohos Evamy, an integrated design firm with studios in Toronto, Edmonton, and Calgary. Since merging with Cohos Evamy to take on leadership of the Edmonton studio in 1987, Doug has seen the firm grow from 120 people to more than 300.

Doug has focused on building a cohesive partnership of practice leaders working across Canada in diverse sectors from institutional and healthcare to retail and commercial projects. He has helped foster Cohos Evamy's longstanding commitment to integrated design through multidisciplinary, architecture, interior design and engineering practice.

As a practising architect, Doug has provided project leadership for some of Alberta's most significant projects including: Winspear Centre, a trio of buildings for the U of A's Faculty of Engineering including the National Institute for Nanotechnology, the Centre for Frontier Engineering Research, NAIT's HP Centre For Information & Communications Technology, SAIT's Project 2001, multiple projects for Capital Health, the Telus World of Science Edmonton, Shaw Conference Centre's Hall D and the Royal Alberta Museum.

Throughout his career Doug has been an advocate for effectively designed community growth and change. He chaired Edmonton's Arts District Partnership, was a client team member for the redevelopment of Winston Churchill Square, and sits on the Advisory Committee responsible for its management. Doug also sits on NAIT's Presidential Advisory Committee, with past roles on the Boards of the University Hospital Foundation, Edmonton's Economic Development Authority, and the Downtown Development Association.

Catherine Nasmith

Catherine stands out in general for her longstanding and energetic commitment to the common good and in particular in two important areas: public service and the role of heritage in our built environment.

In public service, her unusually generous sense of volunteerism and commitment to the betterment of the communities that she is part of brings honour to our profession. Her willingness to energetically engage in the public dialogue regarding so many important issues is exemplary and an example to the rest of us. The “Doors Open” program she was instrumental in initiating has brought pleasure to and informed thousands of people across Toronto, Ontario and now spreading nationally. The Main Street advocacy she helped start many years ago is bearing fruit now in more liveable places in our cities. Her political advice has helped our elected representatives steer policies toward good urban design.

In terms of built heritage, she is tireless in promoting its value, in educating and fostering appreciation of it, and in its role together with new work in enhancing our physical environment. The nationally significant site of Fort York has benefited considerably from her efforts in bringing relevance to it and its surroundings. Communities across Ontario are benefiting from the renewed life she has given the Architectural Conservancy of Ontario. She educates through talks on heritage, bringing in speakers with experience in other jurisdictions, articles in the press and her own Built Heritage News publication with its national reach.

Mark Ostry

Mark Ostry is a founding principal of Acton Ostry Architects, located in Vancouver. Since its inception in 1993, Acton Ostry Architects has demonstrated a continuing commitment to the making of architecture that responds thoughtfully to local topography, climate, culture and to lessons learned from buildings inherited from the past. The values of the practice embody a consideration to design that is without willful extravagance. The design approach of the firm incorporates new technologies and materials that contribute to the realization of projects rooted in a considered, modernist idiom that offer sustenance to those that inhabit and experience them.

The work of the firm has been well received and recognized through various civic, provincial and national award programs.

In addition to the contributions Mark has made to the architectural profession through design, he has also demonstrated a strong commitment to social concerns through his work on community-based projects, his service on the Boards of various community cultural institutions and his participation as a member of the City of Vancouver Urban Design Panel. Mark's work is influenced by contemporary life and age-long traditions that reflect social, cultural and technological activities. His keen interest in creating architecture that serves and improves the public realm is a genuine expression of his belief that the built environment can positively influence social and cultural interests.

Through his professional and personal actions, Mark Ostry clearly demonstrates that he is both a critical thinker and a generous individual doing all that he can to effect changes for the greater good of the community.

André Perrotte

André Perrotte, B. Arch de l'Université Laval en 1982, est membre de l'Ordre des Architectes du Québec depuis 1985, de l'Ordre des Architectes de l'Ontario depuis 2000 et de l'Institut Royal d'Architecture du Canada depuis 2002.

En 1988, après un apprentissage de 6 ans chez quelques architectes montréalais, André Perrotte fonde avec Gilles Saucier la firme Saucier+Perrotte architectes.

Ensemble, ils dirigent une des firmes les plus importantes au Canada, également reconnue aux États-Unis, en Asie, et en Europe. Leur expertise professionnelle a été récompensée par près de 53 prix dont 5 prix du Gouverneur Général, ainsi que 12 Prix d'excellence de l'Ordre des Architectes du Québec et 10 prix de la revue Canadian Architect. Le travail de la firme est publié dans les plus prestigieuses revues d'architecture nationales et internationales.

En 2004, Saucier + Perrotte était choisi pour représenter le Canada à la Biennale d'architecture de Venise. La même année, l'École d'architecture de l'Université Laval décernait à André Perrotte le titre honorifique de « Grand nom de l'École d'architecture » lors des festivités du 40^{ième} anniversaire de l'École.

André Perrotte est impliqué sur des mandats de grande envergure, il agit à titre d'associé en charge et de chargé de projet. Il est très présent dans toutes les étapes de coordination, gestion et conception des projets. Il est reconnu pour la rigueur et la créativité de son approche de la construction comme expression sensible de la culture contemporaine.

Parmi ses réalisations entre autre: le Perimeter Institute à Waterloo, le Communication, Culture and Technology Building à Mississauga, le New College Residence à Toronto, le Jardin des Premières Nations au Jardin botanique de Montréal, l'Ambassade du Canada à Abu Dhabi, le Collège Gérald-Godin à Sainte-Genève, et la Cinémathèque Québécoise à Montréal.

Il est également impliqué dans l'enseignement de l'architecture et a plusieurs fois été invité comme critique dans plusieurs universités canadiennes.

Émilien Vachon

Né en 1937, Émilien Vachon reçoit son diplôme d'architecture de l'Université Laval en 1965.

Après le stage, il fonde son cabinet et s'engage dans une prolifique pratique dont l'excellence est mise en évidence par de nombreuses réalisations. Cette dernière se distingue par un fort engagement social envers la communauté, et plus spécifiquement la région de l'amiante. Il est d'ailleurs convaincu de l'importance de l'implication des architectes pour transformer les milieux bâtis des régions de manière sensible, critique et durable, dans le respect des identités locales.

En 1969, il devient professeur à l'École d'architecture de l'Université Laval dans le cadre d'une carrière académique qui l'amènera aussi à occuper le poste de Directeur (1984-1985 et 2000-2007). Dans ce cadre, Émilien s'est investi dans la création de liens forts et durables entre les milieux de la formation, de la pratique, de la réglementation et des associations. Il a maintenu des relations porteuses avec des acteurs comme la Ville de Québec, les communautés autochtones, la Société d'habitation du Québec, etc. Il est responsable de nombreuses innovations pédagogiques dont l'informatisation de la formation en design, la promotion de la profession auprès des étudiants et du public à travers des livres et expositions, la mise en place de la maîtrise professionnelle, etc. Pendant son mandat, le programme de formation en architecture de l'Université Laval a été reconnu pour son excellence par le comité canadien d'accréditation.

Émilien est pour nous tous, architectes, un modèle et une inspiration.

Dianne VanDommelen

Dianne (Bourgeois) VanDommelen was born in Memramcook and raised in Dieppe, New Brunswick. After her pre-engineering studies at the Université de Moncton, Dianne pursued her first passion and enrolled in architectural studies at the Technical University of Nova Scotia's School of Architecture (now the Faculty of Architecture at Dalhousie University). In 1984, she graduated with degrees in Environmental Studies and Architecture.

Following graduation, Dianne joined Architects Four Limited in Moncton, where her professional career took her from intern architect, to Director and Vice-President of an award-winning New Brunswick firm.

In 1988, Dianne became a registered architect with the Architects' Association of New Brunswick and has been an RAIC member since 1994.

Dianne has served the AANB for many years as Councillor and Chair of various Committees. She has been involved in national initiatives as AANB representative to the Committee of Canadian Architectural Councils (CCAC). In 1996, during the AANB 63th Anniversary she became the first woman to serve as President.

Proud of her Acadian heritage, Dianne is fluently bilingual and together with other colleagues, was a driving force in assisting the AANB to become a fully bilingual association.

Dianne maintains an active involvement with the community and advocates professional awareness through various boards, municipal and provincial associations. She has received awards of merit for exceptional service: Board Member/Entreprise Greater Moncton; Member/Greater Moncton Chamber of Commerce Location Task Force; Member and past Director/Moncton Rotary Club; past Member/Comité Centre-Ville Dieppe; past President/Paroisse Notre-Dame-de-Grâce; past President/Paroisse Saint-Anselme.

Ralph Wiesbrock

Ralph is currently RAIC Regional Director for Ontario North, East and Nunavut.

He is active in his community as a Board Member of the West Wellington Community Association, and Vice-Chair of its Planning Committee. He also sits on the Downtown Urban Design Review Panel of the City of Ottawa.

He was Editor of the successful Ottawa Regional Society of Architects (ORSA) Quarterly Newsletter, as well as Co-chair of the ORSA Official Plan Consultation Committee and Chair of the Design Review Task Force. Ralph was also a Team Leader of OAA CAUSE (Community Assist for Urban Study Efforts), past Chair of the Urban Forum lecture series, and formerly on the Gallery 101 Board, Ottawa's premier artist run centre.

In his professional role, Ralph is a principal at KWC Architects Inc. (Ottawa) and recognized for his heritage projects. He has won a number of heritage awards including projects on the Central Experimental Farm, Rideau Hall and the Chateau Laurier Hotel.

Ralph is sought after for commentary by local media regarding planning and urban design issues and has had numerous articles and letters published.

Ralph developed his craft in architectural firms in Toronto, Thunder Bay and Ottawa before settling at KWC in 1992. He graduated from the Carleton University School of Architecture with High Distinction, winning the OAA Architectural Guild Medal and OAA Raymore Medal for attaining the highest score in his professional qualifying exams. He has since returned to Carleton as a guest critic.
