

YOU'VE GOT A FROND IN VENICE.

CANADIAN PAVILION
VENICE BIENNALE 2010
**HYLOZOIC
GROUND**
PHILIP BEESLEY

Hylozoic Ground is Canada's official entry to the Venice Biennale for Architecture Aug. 29 – Nov. 21, 2010.

Hylozoic Ground is an astounding marriage of architecture, art, science and technology.

An empathic living organism that interacts with individuals entering its space.

Join us as Canada goes for the gold at this year's 'Architecture Olympics'.

Buy a frond, one of the delicate leaf-like building blocks of the installation, for a \$100 donation.

Help build Hylozoic Ground one frond at a time. Your name will be featured in our publicity, on our website and on our sponsor wall in Venice. You will also receive a charitable tax receipt.

For more information including major sponsorship opportunities, or to buy a frond, go to www.hylozoicground.com
